

After the abysmal 1995 film which starred Sylvester Stallone as the iconic 2000AD character, Judge Dredd is finally getting another shot at big screen glory with Pete Travis' DREDD. After a screening at the San Diego Comic-Con last month, the reaction to the remake has been a positive one from fans and critics alike. With Karl Urban (Star Trek) in the leading role, and the promise that he won't take the helmet off, this might just be the film that fans have been waiting for. Screenwriter Alex Garland has already revealed that he has ideas for two more films, so its fate now lies at the box office. In the following video interview with Red Carpet News, Urban talks in detail about his role in the film, and we've also provided you with an index of the topics covered below. • 0:13 - On What Audiences Should Expect From DREDD • 0:39
