

Are you a fan of the Underworld franchise? Me neither. However, there's no denying the fact that Kate Beckinsale is drop dead gorgeous, and there are many comic book characters she could play given the chance. For now, though, she's tied up with this series as we get ready for a fifth - and possibly sixth - instalment. Despite that, box office analysts don't see it dethroning Rogue One this coming weekend! We'll have to wait and see what happens there, but to mark the release of Underworld: Blood Wars, we have Kate Beckinsale's photoshoot from Shape Magazine courtesy of Movie Hotties. As you can see, the British actress isn't afraid to show off her impressive physique, something sure to make superhero fans happy when they fantasy cast her in any number of uncast roles in the Marvel and DC Universe. Who do you think she could play? As always, let us know your thoughts in the comments section.
