

We'd heard that Daniels was going to be a lot like the franchise's original iconic heroine, Ellen Ripley (Sigourney Weaver), in Ridley Scott's *Alien: Covenant*, and this new image from the movie proves she certainly looks the part at least. Following a couple of not-very-revealing teaser pics, EW has debuted this first official still, which features *Fantastic Beasts and where to Find Them* actress Katherine Waterston breaking out the heavy artillery for what's sure to be a nail-bitingly tense bug hunt. The site also caught up with Scott, who says this film will provide fans with the answers they were left pondering after *Prometheus*. "Covenant is really going to show you who did it and why," he assures. *Alien: Covenant* will burst into theaters on May 19, 2017.
