

Speaking from the set of Guardians of the Galaxy Vol. 2 (the embargo has lifted and you can check out our coverage on Vol. 2 by [CLICKING HERE](#)), Marvel Studios President Kevin Feige also touched on what's happening in Thor: Ragnarok. It seems Benedict Cumberbatch's Doctor Strange won't feature very prominently in the film, unless the Sorcerer Supreme is venturing off-world with Thor and Loki. Speaking to ScreenRant, Feige shared that the tone of this particular Thor film may not be repeated in any future installments in the franchise and that it's more of a reflection of where the MCU is at in its current state. "I don't know about branching off from this, but certainly inhabiting similar areas from this. A lot of our upcoming movies will. I mean the upcoming movies will be as much up here, as they are on Earth, starting with not Spider-Man, starting with Thor: Ragnarok. There are three scenes on Earth in Thor: Ragnarok. Everything else
