

Though at least one of these guys was glimpsed very briefly in the trailer (most likely the 2-legged "Dino Monster"), thanks to Idle Hands we have a look at some of the other creatures Tom Hiddleston, Brie Larson, Samuel L. Jackson and co. are going to have to contend with when they journey to the perilous home of the great ape in Kong: Skull island. As you can see, there will also be a giant spider (when isn't there?), and a flying "Pterodactylus." Plus, there's an awesome 18" mega-figure of the King himself. No specific release date for the toys has been set, but they're expected to hit shelves at some point next month. Starring Brie Larson, Tom Hiddleston, Samuel L. Jackson, John Goodman, Jing Tian, Corey Hawkins, Jason Mitchell, John Ortiz, Shea Whigham, and Toby Kebbell, Kong: Skull Island is set to be released on March 10th, 2017.
