

Variety report that Richard Schiff, the Emmy Award winning West Wing actor, will join the cast of Warner Bros. and Zack Snyder's Man Of Steel as a character "dubbed" Dr. Hamilton. Yes, dubbed, but before you jump to any Lex Luthor type conclusions, "Professor Emil Hamilton" is a comic book character. He has appeared in numerous Superman stories, most recently in a villainous capacity as he begins to see Supes as a potential threat to the world. It is unknown where his loyalties will lie in Man Of Steel. A younger incarnation of the character also appeared in Smallville. Schiff has appeared in numerous movies and tv shows including Se7en, Jurassic Park 2, ER and The Sarah Connor Chronicles. up your game at Gambling Insider
