

This latest Logan image continues with the melancholy tone established in the trailer, as we're presented with the hands of a much older, battle-scarred former X-Man. As fans will be well aware, in his prime Logan's healing factor meant that his wounds would heal the instant he sheathed his claws, but with his mutant ability slowed down to a crawl, we see the results of one too many SNIKTS over the years. Be sure to keep an eye on the WponX Instagram page as well as Hugh Jackman's Twitter for more of these stylish shots. Logan stars Hugh Jackman, Patrick Stewart, Richard E. Grant, Boyd Holbrook, Stephen Merchant, Dafne Keen, Eriq La Salle, Elise Neal, and Elizabeth Rodriguez. The final Wolverine movie is set to claw its way into theaters on March 3, 2017.
