

Synopsis- Visionary filmmaker Ridley Scott returns to the genre he helped define, creating an original science fiction epic set in the most dangerous corners of the universe. The film takes a team of scientists and explorers on a thrilling journey that will test their physical and mental limits and strand them on a distant world, where they will discover the answers to our most profound questions and to life's ultimate mystery. This source has also informed me that the image of what was thought to be rocket engines I posted earlier this month are actually not rocket engines but huge air vents from inside a space ship. The first of today's images shows the vehicle we've previously seen glimpses of in the grainy SDCC 2011 images, and the second
