Collider have posted an article full of interesting new information about the highly anticipated third installment in Christopher Nolan's Batman series, that they were given by what they believe to be a reliable source. Responsible for many great scoops in the past, I'm inclined to believe them if they're confident about the authenticity of this. To read more, be sure to follow the link over to the site at the bottom of the page! First up, a source tells us that Eva Green and Naomi Watts have been cast in the film. The source doesn't know which roles they're playing, but believes they've been cast as Talia al Ghul and Vicki Vale, respectively. The same source also tells us that principal photography is set to begin on May 6th with post-production set to begin on November 28th. Our source "Raphael" tells us that the new Batmobile (aka The Tumbler) has been redesigned
