

Man Of Steel will be shooting in Illinois in late August and according to The Times they have filed permits to use a section of highway in northern La Salle County. Josh Kauffman of the Illinois Department of transportation says he is not sure what they are filming, but did say they will use Highway US 34 north of Mendota. Reports The Times: Warner Bros. production officials have filed applications for special use road permits with the Illinois Department of Transportation in order to film segments of "Superman: Man of Steel" in Northern La Salle County, according to an IDOT spokesman. Producers have requested to use a portion of U.S. 34 north of Mendota for filming later this summer or early fall. As stated earlier there has been no mention on what they are filming, or exactly how long they will be shooting at the location. There is also no mention on what actors, if
