

Thanks to Superman: Man of Steel (2013) for making us aware of Below H2O Scuba Diving's new photos with Russell Crowe and Henry Cavill. The scuba company labeled this as training for the Superman movie, but didn't add any information outside of that so we're left guessing. So, what type of scene would need Jor-El and Kal-El to be underwater? I would guess this will be some type of interaction in Superman's home, the Fortress of Solitude. Maybe the water will give the scene a slow-motion alien like effect on the screen? Man Of Steel, starring Henry Cavill, Amy Adams, Kevin Costner, Diane Lane, Michael Shannon, Antje Traue, Russell Crowe, Laurence Fishburne with Christopher Meloni and Harry Lennix, the reboot is slated for theaters June 14th, 2013!
