

ComFlix new animated web comic series The Nation has hit and we have all six chapters below for you to check out. The series was created by Marc Guggenheim, the Executive Producer and Showrunner for CW's Arrow, DC's Legends of Tomorrow and comic book author of titles such as Spider-Man, The Flash, and Blade. The Nation follows a half Navajo FBI Agent as his open and shut murder case proves to be anything but. A nation within a country, a mystery about mysticism, two worlds about to collide... When the confession of a seemingly closed murder case goes awry, a hardened FBI Agent is forced to return to his Navajo roots and partner with a local reservation cop. The two begin to discover a series of inexplicable events, rooted in Native American superstitions, leading them to a twisted conclusion.
