

"I wanted to give the audience something new, so that started off with getting underneath the parents' story, which will unfold over probably a few movies," director Marc Webb told MTV Splash Page in a recent interview. "We don't totally wrap up that story in this first movie. It's sort of an ongoing mystery. That was something that was interesting to me." So far, so good, right? Well, in news which is sure to leave most hardcore Spider-Man fans fuming, Webb went on to reveal that they are completely removing an important aspect of Peter Parker's journey to becoming the superhero. "This is probably a reveal, but there is no wrestling match in this movie. The character is evolving in a different way. It's about finding a balance between iconic elements of the 'Spider-Man' mythology—like how Uncle Ben's death transforms him emotionally—but it happens in a different way." And that's
