

Well, after many speculations, it finally happened. Mark Hamill confirmed that he won't be voicing the Joker anymore. Best known for playing Luke Skywalker in the original Star Wars trilogy, Hamill shared this news on his official Twitter account. He voiced the character in Batman: The Animated Series, Batman: Mask of the Phantasm and other animated features. Most recently he voiced the Joker in Rocksteady Studios' critically acclaimed video game Batman: Arkham Asylum and its upcoming sequel Batman: Arkham City, which is also his final voice work for the character. And in an interview during NYCC 2011 with New York Daily News he said that now, he is interested in directing. There you go...What are your thoughts on Hamill not voicing the Joker anymore? The story for Arkham City takes place one year after the events of Arkham Asylum. Quincy Sharp, former warden of Arkham Asylum, has taken credit for
