

These days, Mark Hamill equally as well known for providing the voice of the villainous Joker in everything from Batman: The Animated Series to Batman: Arkham Asylum as he is for playing Luke Skywalker in the classic Star Wars movies. Talking to The Flickcast at Comic Con last week, here's what the actor had to say about his work on the upcoming video game sequel as well as his interest in voicing the character in the rumored animated adaptation of classic story, The Killing Joke. Batman: Arkham City is set to be released on all major video game platforms on October 18th, later this year.
