

Could we see Marky Mark take on Decepticons in Transformers 4? According to Twitch we could indeed. The site reckon Michael Bay is "having early conversations" with the actor to star in the next installment in the block-busting Paramount movie series. They don't have too much more info on it, aside from a few new details from Ehren Kruger's script. Word is the story would "revolve around an adult star (the part being discussed with Wahlberg) and his teenage child with the idea being that the child would then grow to be the focus of subsequent entries in the series." Could that teenager be the female lead we have heard is rumored to take over from Shia LaBeouf? Guess time will tell. Expect to hear a lot more soon this very soon, but for now what would you guys think of Wahlberg running around spouting gibberish to a green screen in
