

The first two deleted scenes from the Doctor Strange Blu-ray featured Kaecilius (Mads Mikkelsen) indulging in a spot of murder, but these latest excised sequences focus on the far more noble hero of the story, Stephen Strange (Benedict Cumberbatch). The first is really more of an extended version of the scene in which the Sorcerer Supreme goes up against the Zealots for the first time, and in the second, Strange stops to help an injured dog on his way to Kamar-Taj. While all of these scenes are worth a watch, it's easy to see why they wound up on the cutting room floor. Hopefully some more exciting stuff will be saved for the Blu-ray.

5 words for you: Benedict Cumberbatch helps a dog.
