

IGN Movies have posted a story sharing their thoughts on the involvement of the long rumored alien race, the Skrulls, in The Avengers. While they speculate that the Chitauri are the most likely candidates, I found the first part of their report most interesting. With filming close to coming to an end, the only thing we so far know about the mysterious alien invaders is that they're going to be entirely CGI (several actors wielding strange weaponry on the Cleveland set proved this) and aligned with Loki. Sources tell IGN that the Skrulls are not in the film. Smart money is on Loki's allies being the Chitauri, the Ultimate Universe's version of the Skrulls (or one version, anyway). This isn't a new theory. Less cheesy than the scaly-faced green guys from mainstream Marvel, the Chitauri are nonetheless an advanced inter-dimensional race of shape-shifters who also happen to be pretty scary. They even first
