

Set against the thrilling and exotic backdrop of a “galaxy far, far away,” Star Wars is perfectly suited to the immersive 3D theatrical experience, and Episode I delivers some of the Saga’s most stunning and spectacular sequences – from the Naboo invasion to the Tatooine Podraces to the climactic lightsaber battle between Darth Maul and the Jedi. Supervised by Industrial Light & Magic, the meticulous conversion is being done with utmost respect for the source material, and with a keen eye for both technological considerations and artistic intentions.
