

Recently chatting with I Am Rogue, the actor behind 'Dum Dum Dugan' of Marvel and Joe Johnston's Captain America: The First Avenger movie, Neal McDonough, confidently discussed a previously-stated direction for the sequel. Peaking IAR's interest by stating, "It was a blast to play him and I still look forward to Cap 2, Nick Fury or any other films in the future," the site got the actor to talk more about the potential Nick Fury movie, as well whether he was considered to appear in The Avengers. On how 'Dum Dum Dugan' could end up in near-present day in a Nick Fury movie... "In the origin with Dum Dum, he got a small portion of the super serum himself and he was actually the head of S.H.E.I.L.D. until four or five years ago. So he aged really slowly. He aged quicker than Nick and quicker than Steve Rogers did but he aged quite
