

After being absent for the first 2 season 7B episodes, next week's installment of The Walking Dead takes us back to Negan, as the merciless villain finds out that Daryl escaped - and it looks like Dwight is going to be tasked with tracking his old pal down. Meanwhile, Eugene arrives at the compound and looks about as terrified as you'd expect at the prospect of living amongst the Saviours. Check out the promo for "Hostilities and Calamities" below, along with a sneak peek featuring Dwight making a grim discovery.
