

We recently found out that we'd be getting an extended edition of David Ayer's Suicide Squad on Blu-ray this December, and seemingly in anticipation of that, a new ARGUS website has launched. The site is set up like Bruce Wayne's laptop screen from Batman V Superman, with various files on display - though the only one that's accessible for the time being gives us a look at some previously released Task Force X mugshots. Keep an eye on it though, as we're bound to get some new stuff at some point. Access granted. Each week your access level will increase allowing you to dive deeper into the secrets of ARGUS. <https://t.co/KIIGGVY8c> pic.twitter.com/6nQGJmoNoM — Suicide Squad (@SuicideSquadWB) October 10, 2016
