

Ben Affleck's Batman was well-prepared to take on Superman (Henry Cavill) when the two squared off in Batman v Superman this past March. In addition to his kryptonite-based weapons, Batman also utilized a mechanized suit of armor to amplify his strength and durability against the weakened Kryptonian. Artist Jerad Merantz has posted some concept art of the Dark Knight Returns-influenced suit on his official website, showcasing the overall design along with a detailed look at the suit's gauntlets and shoulder armor. Check them out below! Fearing the actions of a god-like super hero left unchecked, Gotham City's own formidable, forceful vigilante takes on Metropolis's most revered, modern-day savior, while the world wrestles with what sort of hero it really needs. And with Batman and Superman at war with one another, a new threat quickly arises, putting mankind in greater danger than it's ever known before. Starring Henry Cavill, Ben Affleck, Gal Gadot, with Amy Adams, Laurence Fishburne, Diane Lane, Jesse Eisenberg, Jeremy Irons, and
