

The new poster is basically the same as the old one except the cabin is full of quotes from critics and movie blogs who were clearly very impressed by the preview screenings they saw..

Five friends go to a remote cabin in the woods. Bad things happen. If you think you know this story, think again. From fan favorites Joss Whedon and Drew Goddard comes "The Cabin in the Woods" a mind-blowing horror film that turns the genre inside out. Produced by Whedon and directed by Goddard from a script by both, the film stars Kristen Connolly, Chris Hemsworth, Anna Hutchison, Fran Kranz, Jesse Williams, Richard Jenkins and Bradley Whitford. Apparently this one has a few twists and turns that nobody will see coming, and those who have seen it are doing their very best to ensure no spoilers leak. We will all get to see if the hype is warranted when
