

For a long time Bradley Cooper was attached to play the lead character in an upcoming revision of The Crow. Being caught in developmental hell Cooper left the project. The people over at Shoch Till You Drop have gotten a hold of some concept art that was drawn up to give us an idea of what Cooper would have looked like had he stayed on the project and taken over the lead role.

What are your thoughts? Some pretty cool art but I am not completely sold on Cooper as The Crow and this art did nothing to change my mind. As usual leave your comments in the comment boxes below.
