

Just a few days ago descriptions for some of these Lego kits surfaced online, and now Empire magazine's Phil de Semlyen has more details. He is attending the Toy Fair at London's Olympia today. After he passed by the Hasbro stand that had The Avengers action figures, he stumbled upon the spoilerific Lego kits. The first, 'Loki's Cosmic Cube Escape', has the Norse god clutching his cosmic cube on the back of a S.H.I.E.L.D. pick-up. No surprise there: it features in the Captain America post-credits clip. Except that behind the wheel is Hawkeye, helping the impish diety escape. If we're not putting two and two together and making 167, it looks like Loki is exercising mind control over the bowman. That's possibly borne out in 'Hulk Helicarrier Breakout', a scene that presumably precedes the cube escape. While his staff is being evaluated in Bruce Banner's lab, Loki is imprisoned in a glass cell.
