

Ridley Scott, director of "Alien" and "Blade Runner," returns to the genre he helped define. With PROMETHEUS, he creates a groundbreaking mythology, in which a team of explorers discover a clue to the origins of mankind on Earth, leading them on a thrilling journey to the darkest corners of the universe. There, they must fight a terrifying battle to save the future of the human race. It seems that the definite reaction to Scott's film Prometheus has been met with mixed reception...but really the main complaint so far was that there were many questions left unanswered, when ironically, the film was meant to answer questions. But as it seems, this is really a film where you will have to decide for yourself on rather you'd view it again or not. Some people felt really disappointed at the final act of the film, and that seemed to be the killer there. But whatever
