

Follow @WolvieCBM !function(d,s,id){var

js,fjs=d.getElementsByTagName(s)[0];if(!d.getElementById(id)){js=d.createElement(s);js.id=id;js.src="//platform.twitter.com/widgets.js";fjs.parentNode.insertBefore(js,fjs);}}(document,"script","twitter-wjs"); Set against the thrilling and exotic backdrop of a “galaxy far, far away,” Star Wars is perfectly suited to the immersive 3D theatrical experience, and Episode I delivers some of the Saga’s most stunning and spectacular sequences – from the Naboo invasion to the Tatooine Podraces to the climactic lightsaber battle between Darth Maul and the Jedi. Supervised by Industrial Light & Magic, the meticulous conversion is being done with utmost respect for the source material, and with a keen eye for both technological considerations and artistic intentions. Looks great, doesn't it? Too bad we have already seen the film though. Star Wars Episode I: The Phantom Menace is the first film in the franchise to be released in 3D, and it's coming out on February 10, 2012.
