

The Flash is taking a break for the election next week, but The CW (via Spoiler TV) has released a new promotional poster featuring Grant Gustin's Scarlet Speedster "feeling the rush" to tide you over. The Girl of Steel won't be skipping next Monday, however, and we have an interesting casting addition for the upcoming tenth season 2 installment. Harley Quinn Smith has revealed that she'll be appearing in her father's episode of Supergirl, which is titled "Supergirl Lives." The young actress shared the info via the Instagram post below, though she didn't offer any clues as to which character she might be playing or the size of her role.
