

If you are like me, then you have been rather intrigued by the progress of this film. I'm a sucker for anything zombie and Max Brooks' World War Z is among the top zombie stories out there. I've been very curious to see how this would play out on film and as expected, they have tweaked the story line to make it more of a suspense type film rather than a mock-u-mentary style that made the book so different from other things we've seen. Up until now, the only images we've seen from this production is some rather lack luster set pics with a few of them featuring Brad Pitt milling around the set. Thanks to a reader of AICN, they have some new images and they feature not only images of Glasgow, Scotland transformed into Philadelphia, but our first look at how the zombies may look for the film. Granted, these
