

After debuting in The Clone Wars animated series, the character of Saw Gerrera went on to feature in Rogue One: A Star Wars Story, as played by Academy Award-winner Forest Whitaker. Now, he'll be reintroduced in Disney XD's Star Wars Rebels. The paranoid extremist we encountered in the movie was more machine than man, and seemed to have become something of a liability to the Rebellion - but it looks like this younger incarnation still has some of his humanity and idealism in tact. Check out a new trailer and the synopses for "Ghosts of Geonosis" parts 1 and 2 below. Part One: The crew returns to Geonosis in search of a missing rebel team sent to investigate suspicious activity there, and are surprised by what they find. Part Two: After finding a missing rebel team member, the Ghost crew discovers another surprise on Geonosis, and work to conceal it from Imperial forces. Star Wars Rebels returns on January 7.
