

AMC (via EW) has put out a lengthy synopsis for February's midseason premiere of The Walking Dead, and despite things seemingly looking up for Rick and the gang last time we saw them, this breakdown suggests there are still trying times ahead. Fans of Robert Kirkman's source material will likely be aware that the arc which finally sets Rick and Negan on a collision course is titled "All Out War", and it looks like that's exactly what's on the agenda. The first half of Season 7 saw Rick (Andrew Lincoln) and the group broken by Negan (Jeffrey Dean Morgan), forced to fall under his will and brutally convinced to live under his rules. The second half of the season will focus on preparing for war and gathering the supplies and numbers to take Negan down once and for all. Rick's group will find out yet again that the world isn't what they thought it was. It's much bigger than anything they've seen so far.
