

The Autobots learn of a Cybertronian spacecraft on the Moon and must race against the Decepticons to find it and learn its secrets, which could turn the tide in the Transformers' final battle. The following Die-Cast toy line, called the Speed Stars, features several characters, both old and new ones (as well as one classic version of the to-be-appearing Autobot, Leadfoot). Some are not clear whether they will really appear in the movie or not, however the toy line has apparently shown us the identity of the previously unknown red Ferrari car that has been shown briefly several times: the Autobot Mirage. Check out several more pictures of the toys on the original article. Another article gives a highlight on another action figure, this time which is the well-known Decepticon minion Laserbeak; giving us a good look on the character as well as apparently revealing that it will take on an alternate mode of
