

United States Special agent Leon S. Kennedy sneaks into a small Eastern Europe country to verify rumors that Bio Organic Weapons (B.O.W.s) are being used in war. Right after his infiltration, the US government orders him to leave immediately. Determined to uncover the truth, Leon ignores the order and enters the battlefield to end the chain of tragedies caused by the B.O.W.s. Resident Evil: Damnation will hit store shelves on Blu-Ray/DVD in the US on September 25th, while Japan sees a later release on the 27th of October.
