

The Wreckers are the new Nascar inspired Autobots from Transformers: Dark of the Moon. They include Roadbuster, Leadfoot, and Topspin. These three new Autobots really live the life of the Nascar fan by looking exactly like them. Notice the sunglasses, beergut (on leadfoot), and mullets. Now the question is, what do you think of these new Autobots? Post your comments below! "Transformers 3" features Sam Witwicky (LaBeouf) taking his first tenuous steps into adulthood while remaining a reluctant human ally of Optimus Prime. The film centers around the space race between the U.S.S.R. and the USA, suggesting there was a hidden Transformers role in it all that remains one of the planet's most dangerous secrets. The villain of the third film will be Shockwave. Leadfoot Roadbuster Topspin
