

Thanks to MCU Exchange, we have a first glimpse of Marvel's new Iron Fist comic book, which will serve as a prequel to the upcoming Netflix series. As you can see, the cover features an artist's interpretation of former Game of Thrones star (unlucky, Ser Loras) Finn Jones, who will harness his chi to fight crime as Danny Rand on the show. We recently got an Iron Fist announcement teaser, so perhaps a proper trailer will premiere at NYCC over the weekend? Keep an eye on CBM for updates. Daniel Rand returns to New York City after being missing for years. He fights against the criminal element corrupting New York City with his incredible kung-fu mastery and ability to summon the awesome power of the fiery Iron Fist. Iron Fist will be the last piece of The Defenders puzzle, and will eventually join Cage, Jessica Jones and Daredevil to form the Marvel Comics super-team.
