

When the first images of the mysterious aircraft surfaced, many of us assumed it was the Batwing. After all, it certainly looked like a "Nolanized" version of the comic book vehicle! However, since the videos of it in action were uploaded to YouTube, many have begun to wonder if in fact there's more to it than meets the eye...mainly whether or not it's actually the Batcopter, which was rumored to be in the movie a few months back. Why the speculation? Well, when you look at the way they're controlling it with hydraulics, it does seem to fit the movements of a helicopter, while many of you pointed out the space on the top of it, which looks like an area where rotors could be later added with CGI. Hell, it may even be something else altogether like a hovercraft! So, which do you think it is?! STARRING: Christian Bale as Bruce Wayne/Batman Michael
