

If you browse the Wonder Woman section here, you'll see that "IT" director Nicolas Winding Refn's passion project is Wonder Woman. Coming off the critically acclaimed Drive, Refn's next movie will be a remake of Logan's Run. The director has stated that if the remake does well enough, he'll get his shot to make a Wonder Woman movie. While I think everyone can agree that Refn is an immensely talented director, there's been a mixed reaction to his public choice of who to put on the golden tiara and lasso of truth. Some people back Refn's choice of Hendricks while others bash it like it's the worst idea ever. Well, we have yet to see Hendricks in the suit so I thought I'd ask the CBM community to come up with their best photoshop manipulation of Hendricks in the Wonder Woman costume for a chance to
