

So some of these I actually wasn't 100% on but I think I have covered most of the CBMs we have seen that were not based on a comic published by either Marvel or DC. And I'm including anything based on a DC/Vertigo comic too. Now there are a few obscure ones I left out, as well as some just downright terrible ones I knew nobody would vote for (yes I realize there are some terrible ones on the list as it is). But I wanted to keep the list to 20 so there you have it. I have my own guess as to which one will come out on top, what do you think? Anyway, vote away! By TwitterButtons.com
