

The following detailed breakdown of the entire plot of Prometheus comes from Boxofficebuz.com and is said to be the real deal but we can't confirm that. One thing is for sure, it sounds so damn crazy it might just be on the level. One way or another be warned, because if this does turn out to be real you will have spoiled the whole movie for yourself. For those that don't mind or don't think it's legit, read on..
