

A heartwarming tale about a boy and his dog. After unexpectedly losing his beloved dog Sparky, young Victor harnesses the power of science to bring his best friend back to life—with just a few minor adjustments. He tries to hide his home-sewn creation, but when Sparky gets out, Victor's fellow students, teachers and the entire town all learn that getting a new “leash on life” can be monstrous. A stop-motion animated film, “Frankenweenie” will be filmed in black and white and rendered in 3D, which will elevate the classic style to a whole new experience. In Tim Burton's “Frankenweenie” young Victor conducts a science experiment to bring his beloved dog Sparky back to life, only to face unintended, sometimes monstrous, consequences. The movie features the voice talents of Winona Ryder, Martin Short, Catherine O'Hara, Martin Landau, Charlie Tahan, Atticus Shaffer, Robert Capron and Conchata Ferrell and will hit theaters October 5th, 2012.
