

Sony Pictures Home Entertainment has officially debuted their Second Screen App for The Amazing Spider-Man exclusively on the Sony Tablet S, Sony Xperia Tablet S and Apple iPad. The Second Screen App, which syncs only with the Blu-ray Disc, offers an additional movie-watching experience, giving users behind-the-scenes access into the world of Spider-Man as the film plays. Additionally, the App will unlock new content each week with all content available by the November 9th release of The Amazing Spider-Man on Blu-ray. By accessing the Second Screen App, users can engage with key elements from the film while watching it on Blu-ray. The App includes two interactive modes – Timeline and Production – both featuring extensive content from the set such as interviews with the cast and filmmakers, featurettes on the making of the film, behind-the-scenes photos, storyboards, concept art, pre-visualization sequences, stunt rehearsals, trivia, factoids and more. - In Timeline Mode, the App syncs
