

A couple of days ago we heard the news that as part of Marvel NOW! The Amazing Spider-Man would be giving way to The Superior Spider-Man #1, written by Dan Slott with art starting off by Ryan Stegman, and later joined by Humberto Ramos and Giuseppe Camuncoli. Yesterday we got our first preview of the art, and it looks like Ryan Stegman brought his A game for this one.

The Superior Spider-Man has gotten a lot of negative feedback but it at least seems that the art is good. Im not a fan of these changes myself but i trust dan slott, we shall see how this pans out, tell me what you guys think in the comments, although im guessing you're gonna hate it, list off anyway.
