

In 2006, we got a big screen adaptation of Silent Hill, which was directed by Christophe Gans with Radha Mitchell and Sean Bean in leading roles. While I thought the film was pretty good in places with some great visuals and atmosphere like in the games, overall many found it dissapointing and didn't really "get" the ending. The potential is definitely there, so it's not surprising that we are getting another film. Title of the sequel is Silent Hill: Revelation 3D, and now Shock Till You Drop received an update from producer Don Carmody regarding the status of the movie, and a possible release date: "Carmody told us the picture is locked. They are now working on the sound and score and talking with Lionsgate about a release date. The producer added that he is hoping for either a late spring or early fall release." The 3D sequel (which is reportedly based
