

When the new logo for DC Comics found its way online after the publishers decided to trademark it, the reaction was very mixed. In fact, the response so far has been overwhelmingly negative, with many fans happier with the current version. While there's still no official confirmation that we will soon see the redesigned logo adorning DC's comics, toys and movies, Bleeding Cool report it may be released officially as soon as tomorrow, while they mention that the general consensus seems to be that it, "works well as an animated item, but less well as a static logo." gambling insider
