

It was VERY close, but after jockeying for position back and forth for a few days Marvel's Iron Man just came out on top with 11,914 Votes (49.27%). Hot on Mr Stark's heels was the mighty The Dark Knight with 11,620 Votes (48.05%). The other three were pretty much left in the dirt which is a shame. I did expect a stronger showing for X-Men: First Class which came in last! But there you go. That being said, how can anyone argue with the winner? I think Iron Man is destined to be one of the finest examples of the genre for many years. Here are the results in full.. So there you have it, Iron Man is officially the CBM community's favorite comic book movie out there today. Will our next batch of highly anticipated flicks such as The Avengers, TDKR and The Amazing Spider-Man do anything to change that next
