

Stan Lee has created (or co-created) hundreds of characters, but rather than offer you a ridiculously long list featuring every single one of 'em, I gave you a selection of those best known to comic and non-comic fans alike. There were obviously going to be some fan favourites missing from the list, but that didn't stop you from voting in your thousands! Here are the top three, but you can view the results in full by clicking [HERE](#). Not exactly surprising results, although I'm not sure I would have guessed that Hulk would make it to second place.
