

It's still not out in a few countries just yet, but Cowboys & Aliens has already fought it's way to the #1 spot at the US box office...only to now be sitting at #2 thanks to The Smurfs. After the mixed reviews from critics for Jon Favreau's last movie, Iron Man 2, it's a shame to see his latest comic book movie adaptation not faring all that much better. The only opinions that really matter of course are your own, and while not many of you voted (which might somewhat explain its disappointing performance at the box office) here's what you thought of Cowboys & Aliens!

Following the news that Warner Bros. are considering a sequel to the disappointing Green Lantern (their words, not mine!) I asked you guys whether or not you really want to see them make this movie. With a promise from the studio that it'll be darker, edgier
