

Godzilla! Godzilla!!!!!! You might have heard of the 70's Godzilla comic book series by Marvel. Yes? No? Either way, it doesn't really matter. Fans who read it don't like it. Why? Well, Godzilla looks like a larger and meaner version of Barney. However, it did have Godzilla battle the Avengers, something that will never happen again. (I'm not joking, the big G trades blows with Thor.) Now we all know Dark Horse, famous for their Star Wars and Conan comics. Did you know that they had done a Godzilla series in the 90's? Today it isn't that well-known, only the fans really know about it. Unlike the Marvel one, (that one had Godzilla shrink down to the point where he wore a hat and trench coat) this one was well-received. You can see what I thought about the whole series in this review [Here](#). Back on target, the Color Special. Funny
