

Going into its third weekend, Rise of the Planet of the Apes continues to shock the most skeptical of people out there by not only being a critically successful film, but scoring at the box office as well. At this point, the film has surpassed \$200 million globally. The breakdown is \$1174 million in America and \$94.1, bringing the grand total to \$211.6 million. Which, for those keeping track of such things (such as Ape Central) is nearly \$25 million in the profit zone with a lot more to come. C'mon, Fox, announce a sequel! The world of Planet of the Apes is exploding with the global success of Rise of the Planet of the Apes, new comics, new illustrated novels, new non-fiction books, a sequel about to be given the green light, etc. Explore the full world of the Apes with news, interviews and much more. Just click on the
